

Diane Huang

Bachelor of Commerce 2020 | diane.huang@queensu.ca | Prev @ Tesla, Mozilla, Deloitte

EDUCATION

Bachelor of Commerce, Smith School of Business at Queen's University, Kingston, Canada **Graduation Dec 2020**

- Queen's University Excellence Scholarship (94% average), D.I. McLeod Dean's List Scholarship (A-grade average)
- International exchanges at Hong Kong University of Science and Technology & University of Technology Sydney

Product Management, BrainStation Academy, Toronto, Canada **Graduated August 2017**

- Completed a 10-week course on market analysis, opportunity identification, MVP strategy and scrum methodology
- Developed a go-to-market plan for a new fin-tech product as the final project

WORK AND ENTREPRENEURSHIP EXPERIENCES

Product Management Intern, Mozilla, Toronto, Canada **Summer 2019**

- Singlehandedly led UX/Engineering/Data Science teams on developing 2 new features for Firefox's secure user registration and login flow. Drove global registration up 20% in 2 weeks
- Led feature releases from conception: user research, feature documentation, technical/security review, user testing and A/B test design. Collected and analyzed qualitative/quantitative user feedback. View my full presentation [here](#)

Global Supply Manager Intern, Tesla, Fremont, California **Spring 2019**

- Led and conducted sourcing strategy for a total of 31 vehicle and battery parts: all Body-in-White/Closure parts of stamping and plastic divisions on Model S/X/3 North America, Model 3 China and Model Y
- Singlehandedly manage entire supply chain process for 11 international suppliers (~\$55MM spend): send RFQs based on qualification of suppliers, analyze quotes received, negotiate and manage supplier relations through calls/visits
- Saved ~\$15/vehicle on Model 3 production for North America and China from solely my projects

Business Technology Analyst Intern, Deloitte, Toronto, Canada **Summer 2018**

- Digital Practice: Led iOS development in a team of 6 to create a mobile application using React.js, streamlining hackathon recruitment processes for managers, senior managers and partners in the consulting service line
- Artificial Intelligence Practice: Conduct research and analysis on the use of AI and chat-bots in the financial industry for client presentations

Established a [nonprofit](#) in high school to fundraise for World Vision Charity. Hosted over 50 unique events over 2 years with 2000 volunteers and contributed over 10k volunteer hours. Won national awards, featured on MTV, Rogers TV and CTV

Co-founded an [entrepreneurship boot-camp](#) as the marketing and technology lead. Received support from the Government of Canada and supported alumni companies in raising over \$21k. Currently collaborating with 4 school boards to introduce tailored entrepreneurship curriculum for teachers and students
